[LinkedIn](#) ♦ [GitHub](#) ♦ [Portfolio](#)

I am a Product UI Designer with 2.2 + years of experience designing B2B and B2C products across fintech, healthcare, and SaaS domains. I focus on understanding user needs, improving user journeys, and creating clean, intuitive interfaces. I collaborate closely with developers and stakeholders to deliver user-friendly solutions that align with business goals.

### SKILLS

|                   |                                                                                           |

### WORK EXPERIENCE

|                                                                     |                                                         |
|---------------------------------------------------------------------|---------------------------------------------------------|
| <b>Product Designer</b><br><b>Karpragati Technologies Pvt. Ltd.</b> | <b>August 2026 – Present</b><br><b>Gurgaon, Haryana</b> |
|---------------------------------------------------------------------|---------------------------------------------------------|

- Handling client projects along with internal HRMS software and EV rider application interfaces.
- Managing end-to-end design process — creative and thinking documents through to final user flows.

|                                            |                                                       |
|--------------------------------------------|-------------------------------------------------------|
| <b>Product UI Designer</b><br><b>AVYRO</b> | <b>May 2025 – May 2026</b><br><b>Gurgaon, Haryana</b> |
|--------------------------------------------|-------------------------------------------------------|

- Leading end-to-end UI/UX design for a B2B industrial workforce product.
- Designing user flows, wireframes, and high-fidelity UI screens.
- Collaborating with developers and stakeholders to improve usability and user adoption.

|                                                              |                                                        |
|--------------------------------------------------------------|--------------------------------------------------------|
| <b>Freelance UI &amp; Web Designer</b><br><b>BNF Digital</b> | <b>Dec 2024 - Mar 2025</b><br><b>Pune, Maharashtra</b> |
|--------------------------------------------------------------|--------------------------------------------------------|

- Designed websites and UI layouts for schools and campaign projects.
- Delivered user-friendly designs aligned with brand goals.

|                                                                     |                                                        |
|---------------------------------------------------------------------|--------------------------------------------------------|
| <b>Web UI Designer &amp; Developer</b><br><b>Neritic Industries</b> | <b>Jul 2024 – Dec 2024</b><br><b>Pune, Maharashtra</b> |
|---------------------------------------------------------------------|--------------------------------------------------------|

- Designed and developed 3 responsive websites across different domains.
- Improved navigation, layout structure, and overall user experience.
- Managed website updates, visual assets, and cross-team coordination.

### EDUCATION

|                                                                           |                                          |
|---------------------------------------------------------------------------|------------------------------------------|
| <b>VIT Bhopal University</b><br>B.Tech (Computer Science and Engineering) | <b>Sep 2021 - Aug 2025</b><br>CGPA: 8.89 |
|---------------------------------------------------------------------------|------------------------------------------|

### PROJECTS

|                                                         |                            |
|---------------------------------------------------------|----------------------------|
| <b>Community Homes - <a href="#">Decor Delights</a></b> | <b>Sep 2023 - May 2024</b> |
